REF: Landlord Agreement Application

As landlord (owner, manager, or rental agent) for rental units designated as _____ and located at _____, we, _____, request that the Macon Water Authority provide service on a continuous basis to rental units not occupied by tenants. _____ will be responsible for and will pay for water service at unoccupied rental units until service is placed in a new tenant's name. Bills for water service are to be addressed as follows:

The \$20.00 account establishment charge is waived for the landlord at the time the tenant requests to disconnect and service is transferred to the landlord. However, should the landlord for any reason request that the water service be disconnected without transferring to a tenant once the agreement is established, the charge will be billed after that date.

If accepted by Macon Water Authority, it is understood that the landlord will be bound by the applicable Macon Water Authority Rules and Regulations for water service, as approved by the Macon Water Authority governing board.

Furthermore, either party may cancel this arrangement upon 15 days written notice to the other party.
